- Participation has been declining since 2012.
- FY 2016 Participation has been holding around 233,237
- for calendar year 2016.
• Lower caseload equals less food dollars being spent.
• FY 2016 is on track to be close to the dollars spent in FY 2015.

For Outstanding Contributions In Support Of The WIC Program
LEAD CAN HURT YOUR FAMILY.

Lead is a metal that our bodies don’t need. Too much lead in our bodies can cause problems, especially for children. Children exposed to too much lead may not look or act sick, but they may have problems with growth and learning. Talk with your doctor to see if you or your child should be tested for lead.
