

Empowering Youth Today

Orientation Meeting
October 2018

Empowering Youth Today

- Positive Youth Development
 - PYD is an intentional, prosocial approach that engages youth within their communities, schools, organizations, peer groups, and families in a manner that is productive and constructive; recognizes, utilizes, and enhances young people's strengths; and promotes positive outcomes for young people by providing opportunities, fostering positive relationships, and furnishing the support needed to build on their leadership strengths.

Empowering Youth Today

- Strength Based Programming

- An individualized, strengths-based approach refers to policies, practice methods, and strategies that identify and draw upon the strengths of children, families, and communities. Strengths-based practice involves a shift from a deficit approach, which emphasizes problems and pathology, to a positive partnership with the family.
