- ✓ A certificate of attendance will automatically be provided to anyone with verified attendance.
- ✓ Direct any questions to: CEInfo@mphi.org

PLEASE NOTE: CREDIT WILL NOT BE AWARDED UNLESS ALL CRITERIA IS MET

PURPOSE:

FASD: Beyond the Basics takes a deeper look at the effects of FASD in children and youth. Strategies to prevent alcohol exposed pregnancies will be described. We'll explore how alcohol damages the developing brain and subsequent effects on day to day living. Societal stigma is examined as a barrier to services. A process for developing interventions to support those with FASD is described and key components in planning for transition age youth will be reviewed. This training builds on basic information provided in Introduction to FASD.

LEARNING OUTCOME:

After attending this training, participants will have knowledge of FASD including how alcohol damages the developing brain, what the effects FASD has on daily living for children and youth with FASD, and the process for developing interventions to support children and youth with FASD.

Purpose, Objectives, and Disclosures

LEARNING OBJECTIVES:

- Describe three ways alcohol causes damage to the developing brain.
- List the effects of FASD on day to day living.
- Identify personal values regarding prenatal alcohol exposure
- Describe a process for developing interventions to support children and youth with FASD
- List services and resources for families and referrals for healthcare
- Describe how and what stigmas surrounding FASD are often incorrect

EDUCATIONAL PRESENTERS:

Dan Dubrovsky, MSW, FASD Specialist

DISCLOSURES:

All presenters and planning committee members have completed a Financial Disclosures document that includes an explanation of Relevant Financial Relationships. Based on these forms none of the planning committee members or presenters have relevant financial relations with ineligible companies to disclose.
